

# CONCRETE

PACKAGED PRODUCTS

***Fournier***

# ROBUSTNESS AND QUALITY

Fournier's packaged products have a solid reputation. They have proven their superiority on the market for over 30 years.

Extensive experience with **concrete products** in the most demanding mining and civil environments.

Reliable, robust, high-performance products that meet the **most demanding requirements**.

Fully **integrated production process** : from aggregates to delivery.

Highly qualified **technical support** group to support you on both the product and the application.

Wide range of solutions ranging from the simplest offer to **customized products**.

# TABLE OF CONTENTS

STANDARD CONCRETE	7
SELF-COMPACTING CONCRETE	7
FIBER REINFORCED CONCRETE	9
CEMENT GROUTS	9
DRY SHOTCRETE	11
DRY SHOTCRETE - HD SERIES	11
DRY SHOTCRETE - SLAB-ON-GROUND SERIES	13
WET SHOTCRETE	13
GATORPASS SHOTCRETE - HIGH PERFORMANCE	15
TECHNICAL SERVICE	16
FOURNIER'S SIGNATURE	18

## **STANDARD CONCRETE**

- Final compressive strengths ranging from 5 to 50 MPa
- Available aggregate sizes (5, 10, 14 and 20 mm)
- Liquid admixtures or powder from admixtures pre-blended in packaged products available

5-50  
Mpa

## **SELF-COMPACTING CONCRETE**

- Complete filling of heavily reinforced structures without the need for external vibration
- Optimized mix composition to maximize concrete stability
- Excellent pumpability
- Liquid admixtures or powder from admixtures pre-blended in packaged products available

## FIBER REINFORCED CONCRETE

- Multiple fiber types added on request
- Microfibers
- Synthetic macrofibers
- Steel fibers

## CEMENT GROUTS

- Customizable properties and performance for various needs
- Unsanded and sanded versions available

## DRY SHOTCRETE

- Reliable and versatile
- For vertical and overhead application
- Excellent adhesion on a variety of substrates
- Low rebound rate
- Customizable properties for various needs

## DRY SHOTCRETE HD SERIES

- Specially designed for harsh environment
- Robust and permissive
- Maximum adhesion
- Very low rebound rate
- Increased early strength gain

## DRY SHOTCRETE

---

### SLAB-ON-GROUND SERIES

- Reliable option for slab-on-floor placement
- Wide range of products
- Adjustable performance for various requirements

## WET SHOTCRETE

---

- Reliable and versatile
- For vertical and overhead application
- Excellent adhesion
- Low rebound
- Adaptable fluidity for various application processes

## **GATORPASS SHOTCRETE HIGH PERFORMANCE**

- High ductility
- Excellent abrasion resistance
- High durability
- Maximum adhesion
- Very low rebound rate

# TECHNICAL SERVICE

A technician wearing a white lab coat, safety glasses, and blue gloves is pouring a liquid from a clear beaker into a large, dark, industrial mixing bowl. The technician is standing in a laboratory or industrial setting with various equipment and shelves in the background. The text "TECHNICAL SERVICE" is overlaid in large, white, bold letters across the top half of the image.

Technical service **available 24/7, 365d/year.**

**Client orientated** approach.

Customized service for **optimal process implementation.**

**State-of-the-art** laboratory and mobile testing equipment.

More than just a catalog, Fournier offers **innovative solutions** tailored to the specific needs of our customers.

## *Fournier's signature*

Since 1936, L. Fournier & Fils has been a proud family business with a human touch and is recognized as a reference in the concrete industry. Its dedicated team evolves and innovates year after year and the reputation of our products and services is well established.

In addition to the quality of our products, our greatest strengths are our human approach and our personalized service to meet the needs of our customers. Our highly qualified and experienced team is committed to going above and beyond the call of duty, and the relationship with our customers is at the center of our priorities. We firmly believe that this commitment makes our offer a top-of-the-line experience !
